## Pressman Is Challenged By Chambers

Wants Pressman To Tell F.B.I. What He Knows Of Reds

By JAMES L. KILGALLAN  
(U. S. Staff Correspondent)

NEW YORK, Aug. 30.—Whittaker Chambers today challenged Lee Pressman to go to the FBI with information he has on the activities of the Communist apparatus in Washington.

The man who exposed Alger Hiss, former State department executive, declared that until Pressman does tell the FBI what he knows, he will not be impressed by the testimony given on Monday by Pressman before the House committee on un-American activities.

### Admitted He Was Communist

(Pressman admitted before the congressional group that he was a Communist while in government service in 1934, and identified three early New Deal men who, he said, had served with the Communist party.)

Reached by telephone at his farm in Westminster, Md., Chambers was asked to express an opinion regarding Pressman's statement that he knew nothing of Alger Hiss as a participant in Communist activities.

"Is this off the record or for publication?" Chambers inquired. "For publication," he was told.

Pressman, a moment, Chambers said:

### Knows Great Deal

"Well, put this down." He then dictated this statement: "Lee Pressman is a keenly intelligent lawyer who knows just what he is up to and why. He knows a great deal that I know and much more about certain aspects of Communist activity in Washington and elsewhere than I know."

"I should like to see him go to the FBI. So far as I understand he has refused even to talk to them."

"Until he does that, and a great deal more, I shall not be impressed."

Charley Streib, of Delaware avenue, has tomato plant which is going all out in the matter of production. Mr. Streib stated that he has already picked close to 20 ripe tomatoes off the vine, and it still has 91 fruits on it. If the frost holds off, he ought to get close to a bushel off the one plant. P. S.—He assures us it is not a grape tomato or preserving tomato, either.

Next week-end is the climax for summer holiday touring and indications are that traffic on routes through this area will be heavy. Highways will be patrolled during the long week-end, but every driver must use every precaution to prevent accidents, if the local safety record is to be maintained.

Work is progressing rapidly on an addition being constructed to the Moose Home on South Mercer street.

Lawrence county's highway department equipment will not be radio equipped this winter it was announced today by Alfred A. Martin, county highway superintendent. Counties to the north have heavy equipment radio equipped which enables workmen to call out additional help during heavy snowfalls. Lawrence county is on the edge of the heavy snowbelt, thus missing many of the heavier snow falls which our northern neighbors get.

Here's a chilling thought, the state highway department has received a carload of snow fence to replace that which has become worn out over the years. Approximately 21 miles of snow fence are erected each year in Lawrence county. Prognosticators are looking for a light snow fall in this area again this year. They may be fooled.

## Report Man Confesses He Killed Five In Family

EAST GREENWICH, R.I., Aug. 30.—(INS)—Rhode Island police announced today that a 27-year-old boarder had confessed the murder of a family of five and admitted his action followed disclosure of an affair with the wife of his landlord.

Police Chief Charles R. Johnson said that Edwin H. Reynolds, the boarder, signed a lengthy confession in which he acknowledged that he was the father of Mrs. Fred R. Dusza's unborn child.

Mrs. Dusza, mother of three daughters, died early Tuesday along with her children and her husband in what police described as a four-hour orgy of slaughter.

The Dusza family at first was believed to have died in what appeared an accidental fire which destroyed their home early Tuesday.

Police investigation uncovered foul play and a manhunt was started for Reynolds who was captured in a hideout near the Dusza home by authorities who were led to the spot by Reynolds' pet collie dog.

The police said that once in custody Reynolds, himself the father

## Believe Days Of Russian U. N. Walkouts Are Ended

By PIERRE J. HUSS  
(U. N. S. Staff Correspondent)

LAKE SUCCESS, N. Y., Aug. 30.—Soviet Delegate Jacob Malik indicated today that the days of Russian walkouts from the U. N. Security Council are ended for the present to enable him to fight the U. S. through September on Formosa and Korea.

The Russian served notice on the other ten council members that he intends to press hard for an invitation to representatives of Communist China to participate in Formosa discussions.

Malik lost a formal motion for

such an invitation to the Peiping regime at last night's session, after which he adjourned the council to Thursday at 3 p.m.

### Last Day As President

This will be his last day as president, the end of 31 days of turbulent sessions marked by violent battles between himself and other members. He refused time and again to allow a vote on seating South Korean representative John M. Chang, thereby tying up all active consideration of the Korean situation.

## President To Get Economic Controls Power

Senate-House Conferees To Work Out Last Details

WASHINGTON, Aug. 30.—(INS)—Senate-house conferees will smooth out the last rough edges today on a bill giving President Truman a free hand to administer far more drastic economic controls than he asked.

The weary conferees removed the major stumbling block on the legislation late last night by agreeing to allow Mr. Truman to impose price-wage ceilings as he sees fit.

The senate wanted to jump all controls together and require the president to apply overall ceilings on the economy if he decided to slap price brakes on any one item. The act would run until June 30, 1951.

### Some Provisions

Although the senate conferees retreated from this stand, provisions were included which would require Mr. Truman:

1. To stabilize wages and salaries in any business or industry in which he imposes a ceiling on materials or service.

2. To apply overall ceilings on both prices and wages "clear across the board" when he has controlled a "substantial part" of the economy, using the item-by-item approach.

The conferees still must tackle relatively minor differences in the

## Group Of 108 Refugees At Boston Harbor

Fled Communists Terror In Estonia And Latvia Sector

BOSTON, Aug. 30.—(INS)—A group of 108 exhausted refugees from Communist terror in Estonia and Latvia today gazed across Boston Harbor after a grueling ocean voyage to America and silently prayed they will be allowed to remain in this free land.

The refugees ended their 28 days trip last night when the 105-foot motor vessel Masen entered the harbor after a voyage highlighted by a collision at sea that nearly sank the ship.

### Tells Of Flight

The 41-year-old skipper of the Masen, who wished to remain unidentified to protect relatives still living behind the iron curtain, told of the flight to freedom. He said: "We left our homes in Estonia and Latvia to escape the cruel persecution of the Russian leaders. They are sending our children to the east, our men folk to the west, and our women..." and here his

## Seoul Bridge Knocked Out

TOKYO, Aug. 30.—(INS)—Navy and Air Force pilots were given joint credit today for knocking out the west bridge at Seoul—long the number one target of airmen.

The bridge was termed "one of the strongest in the world." The Japanese built it four times normal engineering strength because of flash floods on the Han river.

Gen. Douglas MacArthur announced that the span suffered eight direct hits from naval flyers who reported the bridge was left "zigzagging." The next day it was hit by an air force pilot who scored more hits and reported "the vital bridge at Seoul is down."

## Canadian Rail Strikers Wait For Parliament Action

OTTAWA, Aug. 30.—(INS)—Striking Canadian railway workers refused today to call off their nationwide walkout until parliament passes a law ordering them to do so.

But there was every indication that emergency legislation would be passed before midnight tonight, and that the men would go back to work tomorrow.

The bill introduced yesterday by Prime Minister Louis St. Laurent gives both sides in the dispute just 48 hours to get the railways into full operation again.

The decision not to end the strike in advance of parliament's action was announced by Frank Hall, leader of 15 international unions involved.

## Bomb Attacks Made On Enemy Supply Routes

(BULLETIN)

TOKYO, August 30.—(INS)—B-29 Superfortresses struck again today in the steady effort to choke off enemy supplies to the front.

Superfortress and B-26 light bomber crews used new methods to hit at ingenious North Korean efforts to keep open traffic lines southward from Seoul, fallen South Korean capital.

An air force spokesman said that on the outskirts of Seoul, 140 miles northwest of Taegu, the Communist forces have built a hinged pontoon bridge, half of which can be withdrawn in daytime to the north bank. The other half is pulled back to the south bank.

Last night B-29's dropped powerful fires over the pontoon halves so that B-26 light bombers could

## Vital Ridge Is Recaptured By Negro Troops

Dramatic Recovery Of "Battle Mountain" Is Reported Today

By HOWARD HANDLEMAN  
(Far Eastern Director, I. N. S.)

TOKYO, Aug. 31.—(Thursday)—Hard-fighting U. S. Negro troops recaptured blood-stained Sobuksan ridge in Korea's south sector Wednesday night, while South Koreans on the east coast stopped Red forces in Pohang's environs.

The dramatic recovery of Sobuksan, nicknamed "battle mountain," was achieved by the American 24th regiment and reported in a midnight front dispatch.

The prized ridge, 35 miles west of the all-important Allied entry harbor of Pusan, now has changed hands eight times in ten days.

At the opposite end of the 120-mile Korean perimeter, a fierce battle raged at Kigye, a key road junction eight miles west-northwest of the port of Pohang. Shock units of perhaps 20,000 Red troops were striving to bring Pohang under direct siege from three sides.

MacArthur's communique, issued at 1 a. m. Thursday (11 a. m. EDT, Wednesday) said the main road southwest of Pohang, cut by an enemy roadblock Tuesday night, has been cleared.

A midnight International News Service dispatch from that blazing sector said it was not clear late Wednesday night which side was in control of Kigye. The battle was rocking back and forth through the city between its southern and northern outskirts.

Before dawn Wednesday, the blasted junction city changed hands for the third time in 72 hours when North Korean troops recaptured it and drove south to attack heights defended by American-aided South Korean forces.

The late field dispatch described

House and senate versions of the bill, but Senate Banking Chairman Maybank (D) S. C., said the work would be finished by noon today. House Banking Chairman Spence (D) Ky., said he would file his report tonight and bring the agreement up in the house by Thursday.

## Action This Week

After the house action, Maybank said, the Senate could act either Thursday or Friday, sending the bill to the President before the weekend.

In addition to the price-wage formula, the bill contains those specific powers for which the President asked—authority to set up priorities, allocations and rationing of scarce goods and services and to control real estate and consumer credit.

Actually, the President has three choices of how to apply price-wage stabilization—voluntary, "select-

tive" (item-by-item), or overall, general curbs.

Mr. Truman is virtually certain to use only the first two initially and only on key items such as steel and iron, building materials, rubber and chemicals.

The House agreed to the Senate suggestion for a 10-man joint "watchdog committee" to keep an eye on how the controls are applied.

Six other bridges were damaged seriously and more than 230 tons of high explosives were dumped on freight yards at Chongjin, the big rail hub about 50 miles south of the Soviet Siberian frontier.

## Graduates From Embalming School

Mr. and Mrs. Robert Gee, of this city, have returned from Cincinnati, O., where Mr. Gee has been spending the past year, attending the Cincinnati School of Embalming.

Mr. Gee was graduated on August 25, at exercises which were held in the Masonic Temple in Cincinnati. The graduation exercises were attended by the parents of the young couple, Mr. and Mrs. Harry Carlson and Mr. and Mrs. Charles Gee.

(Continued from Page One)

of three children and estranged from his family, stoically related the ghastly details of how he battered Dusza with an axe and then strangled Mrs. Dusza and the Dusza children.

His confession, according to police, related how he spread kerosene about the Dusza home and set fire to it in an attempt to cover up the crime.

## Wiped Out Family

Reynolds was said to have told how he alternately smoked, killed and drank coffee until he had wiped out the family of five.

Reynolds signed a three-page confession, police said. They said he admitted murdering Dusza, 39, his wife, and making a funeral pyre of their own home. He said the whole tragedy was an outgrowth of an affair between Reynolds and Dusza's wife.

Besides Dusza's wife, Beatrice, 31, the other victims were—Beatrice, 11; Kathryn, 8, and Gail, 3.

Reynolds, a boarder at the Dusza home, said he used a chair, axe, rope, silk stocking and his bare hands to snuff out the lives of the Duszas after an argument which began when Mrs. Dusza informed her husband that Reynolds was the father of her unborn child.

## Arrested 24 Hours Later

Four hours elapsed between the time Reynolds slew Dusza and the time he set fire to the new, seven-room home—which he had helped to build and pay for—and stood outside and watched it burn.

It was nearly 24 hours later, long after the charred remains of the family were found in the ruins, that Reynolds, sleeping peacefully less than a quarter-mile from the gruesome scene, was captured when his pet collie dog led police to him.

He was nabbed in the quonset home of his estranged wife, Betty, who had left him nine months ago because of his growing friendship with Mrs. Dusza.

Reynolds calmly told police how, after savagely battering Dusza to the kitchen floor before the horrified eyes of Mrs. Dusza, he placatingly talked to her for more than an hour to allay her fears for her own and her children's safety—and then strangled her with her own stocking.

There is one murder case on the list, that of Eddie Warden, who is charged with the slaying of Charles Wiley.

A BASEBALL CLUB SUED

An action in assumpsit has been started by Mike Cannavino, of Erie,

in behalf of himself and stockholders and creditors of New Castle Professional Baseball, Inc., a corporation, vs. William DeCarbo, Alfonso Scarazzo, Ed Smeahl, Anthony Conn and Frank Moretti, as individuals, and also the New Castle Professional Baseball, Inc., a corporation.

No bill of particulars has as yet been filed by Mr. Cannavino, the prothonotary merely being directed to issue a summons in assumpsit. It is understood that the action seeks to collect money alleged due the plaintiff on the sale of the New Castle Baseball Club to the above named directors.

### APPEALS FROM JUDGEMENT

A transcript in appeal has been filed from the docket of Alderman L. C. Mantz, of the Fourth ward, in the action of Mary Quarello vs. Paul Zarillo, in which judgement was entered in behalf of the plaintiff in the sum of \$170, with costs from July 31, 1950, over alleged rentals due the plaintiff by the defendant.

### DIVORCES SOUGHT

Several complaints in divorce have been filed in the office of Prothonotary and Clerk of Courts John A. Edgar.

Clyde Shoaf, Jr., 13 1/2 Greenwood avenue, asks a divorce from Ruth R. Shoaf, Antioch, Calif., charging cruel and barbarous treatment, and desertion. They were married in Hayward, Calif., August 16, 1947.

Betty Jane Armstrong, 707 Monroe street, a minor, by her father, Arthur Clark, her guardian, asks a divorce from James Norman Armstrong, R. D. 6, charging indignities, cruel and barbarous treatment, and desertion. They were married in New Castle, February 10, 1950.

### SUES OVER BILL

An action in assumpsit has been instituted by Russell E. McClelland vs. Charles R. Trehanne, Grace H. Trehanne, his wife, and John P. Brinton.

Mr. McClelland, in his bill of

particulars, alleges that he was engaged as funeral director to conduct the funeral of Orange Book, at an agreed charge of \$385. The decedent at the time of his death was owner of certain real estate in Slippery Rock township, Lawrence County.

The defendants negotiated with the heirs and arranged for the purchase of this property, which culminated in a deed from the heirs. At the time the said deed was negotiated, the funeral bill of the plaintiff was a lien on the premises, which the defendants assumed and agreed they would pay on resale of the property. That the said property was sold to Ralph Fiorella and others, and that the defendants neglected, failed and refused to pay the sum, as a result, damages in the sum of \$385, with interest from August 8, 1947, is asked and a trial by jury demanded.

### BESSEMER REGISTERS MANY

Registration in Bessemer Monday proved quite heavy, a total of 81 registrants being recorded. Of this number 64 were Democrats and 17 Republicans. This is due in part, perhaps, to the fact that Frank Clark, Bessemer chief of police, is a candidate for general assembly on the Democratic ticket.

### MARRIAGE LICENSE APPLICATIONS

## THE FAMILY SCRAPBOOK

By DR. ERNEST G. OSBORNE

The Lift of the Brow

"When Norman brought that little Yablonski youngster home from school, I was really upset. He lives in that old broken-down house that's full of kids. I don't know why people have so many children! Naturally I tried to hide my feelings and fortunately Norman hasn't brought him home again. I want my boy to be democratic but..."

Have you ever heard conversations of this sort? Yes, we want our children to be democratic. We may even tell them that all men are brothers. But, it's the "buts" that tell our youngsters what we really feel. It's the lift of the brow when we talk about certain people. It's what our faces tell not what our mouths say.

Children aren't born with prejudices about skin color, race, religion or nationality. Their prejudices are caught from us.

So, the sooner we face up to this fact the better. It's no good

saying one thing and feeling another. If we really want our youngsters to be unprejudiced, we must work through some of our own prejudices. That's not easy. But it's not impossible.

Talking through the way we feel with understanding friends may help; explaining how "we got that way" to our children, and admitting the foolishness of it is better than to confuse them with actions that speak louder than words.

### BABY CLOCKS

Baby doesn't worry much about clocks. He has one of his own which tells him when he needs to stoke his furnace.

It is better to pay attention to baby's clock than to the tick-tock one.

Each baby seems to have a regulator of his own. It tells him when he needs grub.

Then he tells the world. It may not be at the most convenient

## Historical Medical Highlights No. 33

### The Fountain of Youth

HE was an old man, but he was a researcher and he was working on a fascinating experiment—he was seeking an "Elixir of Life". Into twelve decrepit, aging dogs, he injected an extract taken from the testes of healthy young guinea pigs. Eleven dogs were unaffected, the twelfth seemed to be rejuvenated. Could it be...? Charles Brown Sequard injected himself with the extract—he felt younger, more vigorous. The "Elixir of Life" was found, and with it, man's first knowledge of hormones, knowledge which may truly lead to the Fountain of Youth.

We can't sell you the "Elixir of Life"—NOT YET anyway, but you can count on your pharmacist for all the newest drugs as soon as they have been thoroughly tested and approved for your use by recognized medical authorities.

## Vital Ridge Is Recaptured By Negro Troops

(Continued from Page One)

embattled Kigye as "nothing but ashes and no longer of any strategic value" after the South Koreans counter-attacked and transformed the town into a virtual no man's land.

The message reported that the situation in the vital Pohang-Kigye sector had been "stabilized momentarily" late Wednesday night. Along the upper side of the United Nations defense rectangle, South Korean troops repulsed a big new tank-led enemy onslaught after falling back three-fifths of a mile before a Red drive northeast of pivotal Taegu.

**Break Up River Crossing**  
On the central front, American infantry and heavy guns below Taegu broke up three more attempts by boatloads of Communist troops to cross the Nakdong river which had suddenly dropped 15 inches in depth due to a dry spell.

Two British battalions, including units of the celebrated Scottish Highlanders, arrived at action stations on the war front to add their weight to the growing Allied forces battling the Red invasion. Allied planes and warships dealt fresh bombing, strafing and shelling blows against North Korean troops and installations in every battle zone and along both the east and south coasts.

Despite severe fighting in three of the four principal sectors, no major changes occurred Wednesday afternoon and evening. Accordingly, U. S. Eighth Army field headquarters omitted its customary nightly communiqué Wednesday.

**Developments On All Fronts**  
Up until about midnight Wednesday, developments included:

**East**  
United Nations troops blotted out a dangerous Red roadblock three miles southwest of Pohang. This infiltrating enemy penetration had threatened to complete the encirclement of the second most important Allied-held harbor city in Korea. It also menaced an American airfield six miles southeast of Pohang.

The North Korean Fifth Division recaptured Kigye, eight miles west-northwest of Pohang, and drove 500 yards farther south in effort to seize key heights overlooking roads leading inland from Pohang. But the South Korean Capitol Division then stopped the Red onslaught dead in its tracks. About three miles due north of Pohang, the South Korean third division halted further strong Red assaults after making slight retirements before the onset of the enemy's 12th division down the shoreline highway.

Third division left (west) wing units counter-attacked northwest of Pohang in an endeavor to link

up with the Capitol Division's right (east) flank. The Red fifth and 12th divisions, backed by 6,000 reinforcements and screened by violent artillery and mortar barrages, sought to close in on Pohang from three sides—the north, northwest and west.

**North**  
The South Korean sixth division beat off a large-scale new onslaught by Red tanks and troops early Wednesday after falling back 1,000 yards Tuesday below Hwang-dong, 16 miles north-northeast of Taegu.

At the western end of a 37-mile front along which the Reds were pressing twin offensives, the invaders also were employing heavy artillery and mortar fire as they sought to thrust a wedge between Taegu and Pohang.

**South**  
The U. S. 25th division's famed Negro 24th regiment recaptured Sobuksan, also known as Battle mountain, Wednesday night. The ridge thus changed hands for the eighth time in ten days.

Up until noon Wednesday, 25th division troops were hit by six strong Red attacks within 48 hours. Four of these were repulsed. The other two drove a 500-yard wedge into American lines at one

point in the south sector and retook Sobuksan at another point. Later the wedge was erased and Sobuksan recovered.

South Korean Marines were landed amphibiously to stab at the enemy's lower flank while an American destroyer cannonaded Red forces along the southern seaboard.

A captured Red soldier reported that the entire North Korean seventh division had arrived on the south front to reinforce the Red sixth division.

**Central**  
U. S. Second Division Infantry and artillery smashed three efforts by troop-laden Red boats to cross

the middle Nakdong to the east bank some 28 miles below Taegu. Other smaller enemy attempts to cross were also driven back.

The river's level fell 15 inches within 24 hours due to lack of rain.

## House Votes 357-1 In Favor Of Red Control Measures

WASHINGTON, Aug. 30.—(INS)—The house Tuesday showed its overwhelming support for communist-control legislation by a 357-1 vote.

The vote was on a resolution to call up the legislation sponsored by Chairman Wood (D) Ga., of the House Un-American Activities Committee. Rep. Marcantonio (A-L) N. Y., cast the lone dissenting vote.

## Immediate World War "Not In Stars"

LOS ANGELES, Aug. 30.—(INS)—A third world war is indicated by trends of the planetary cycles, but not before 1953.

Edna L. Scott of Los Angeles, president of the American Federation of Astrologers, said Tuesday that the cycle trend indicates "no

world war is imminent, but after 1953 war clouds will gather." She added that, meanwhile, "all the trends and prospects will be toward war," marked by such lesser conflicts as Korea.

## Verrall To Speak Here September 28

Richard P. Verrall, C. S., of New York City, has accepted an invitation by First Church of Christ, Scientist, 334 East Moody avenue, to speak in New Castle Thursday evening, September 28.

The subject of Mr. Verrall's lecture will be "Christian Science: The Great Physician Understood." It will be held in the Cathedral, Highland and Lincoln avenues, at 8:15 o'clock daylight saving time. ## Special Train To Bring Beatty Circus Here Friday

CLYDE AND HARRIET BEATTY

A special train carrying 600 pretty girls, cowboys, clowns and aerial performers and 500 lions, tigers, elephants and horses will roll into New Castle Friday morning and begin preparation for entertaining local circus fans.

The Clyde Beatty circus—all twenty-seven tents of it—will be set up at Cascade St. show grounds, ready for the first performance by 2:30 p. m. Friday, according to Frank J. Lee, general press agent.

Lee said New Castle folks on hand to watch the circus unload Friday morning would get an opportunity to watch elephants in action. The Beatty elephant herd does most of the heavy work involved in setting up the circus.

Advance agents of the circus, the second largest railroad circus in the world, have been in New Castle for several days rounding up supplies necessary to keep the show in operation during its one day stay here. "It takes a lot of steak and hay to keep our performers and animals going, along with a lot of other supplies," Lee said.

Performances are scheduled at 2:30 and 8 p. m. Friday, Sept. 1, with the grounds open to the public an hour in advance of each show.

to permit spectators to visit the circus menagerie.

### Beatty Has Own Act

In addition to the elephant acts, the Beatty circus features a lion and tiger act by Beatty himself; the Great Barton, the man who walks on his finger tips; thirty clowns; Frank Doyle and Beatrice Andrews, aerial stars, and Don McLennon, movie cowboy and television star.

Another of the circus' featured attractions is an acrobatic performance by the four Caudillo sisters of Mexican City. Daughters of one of Mexico's leading families, they were taught acrobatics by a Spanish gymnast as part of their health program and turned to the circus after they had scored a big success in a local society circus in Mexico City.

Advance tickets for the circus will go on sale Show Day at Rands Rexall Store, at 9 a. m. Friday, Sept. 1 for circus fans who want to be sure of the performance of their choice. Tickets also will be on sale at the Cascade St. show grounds, before each of the two performances.

### MUSICIANS AT HOMECOMING

Musicians Local No. 27 played before an estimated crowd of 1000 people on August 17 during the homecoming celebration for vets of World Wars I and II in West Pittsburg. The program was presented from funds provided from the recording and transcription fund of the American Federation of Musicians. Emil Orland was the leader of the program.

## Today's Fashion Flash

By PHYLLIS BATTELLE

NEW YORK, Aug. 30.—(INS)—Stanley Marcus, executive vice president of Dallas' Neiman-Marcus Co., said today that the Paris fall fashions are "excellent as usual but offer nothing revolutionary, style-wise."

Returning from a two-month tour of Paris and London designers' salons, Marcus predicted that the slim silhouette is here to stay for a few seasons.

He said: "The slim look is the only decided trend in the French collections. Designers won't speculate on what's coming up for next spring in fashion, but they always stick with a basic silhouette till they exhaust it. And the slim look is too young to be exhausted very soon."

Marcus pointed out that all-black is the shade of the year. When the couturiers do use color, they add blues, reds and violets.

Skirt lengths in Paris are 15½ inches from the floor, said Marcus, but the American woman will probably continue to cling to the 14-inch see level!

## Somerset Beautician Killed In Accident

SOMERSET, Pa., Aug. 30.—(INS)—Mrs. Frances J. Orndorf, 41-year-old Somerset beautician, was killed yesterday in an automobile accident on Route 219, three miles east of Somerset. State police said her car slid 75 feet into a utility pole.

ROB PARK CONCESSION  
Cigarettes, chewing gum, candy bars, ice cream and 80 cents in change was stolen from the Cascade Park concession operated by Joseph Zuzow last night, police were told.

For many years man has been flying airplanes with engines to power them and wings to hold them up. With his skill he has perfected the airplane, but not as perfectly as the body of the birds from which the idea sprang.

Birds have engines in their bodies, a system of powerful muscles that move their wings, which hold them up and move them at the same time.

One of the marvels of a bird's body is the accumulation of muscles in the wings, that are attached to a piece of bone projecting from the breast, this bone is called a "keel."

Like airplanes that fly, birds must have a lot of fuel to keep them going. Their energy comes from food. Whether it be seeds

or insects they eat the birds must get a certain amount of fats or they could not keep the wings in motion. This fuel fat is stocked within a layer of skin. Small birds can fly long journeys through the air as well as large ones because their bodies are just as well fueled and streamlined.

The Bufflehead Duck is a speedster and must have enough fuel to take it through the air at a speed of more than 60 miles an hour.

The Sea Swallow or Tern spends half its time flying between its winter and summer home, so it must store up enough fat from the food it eats, to make a trip the distance each year in excess of 20,000 miles, a wing journey of nearly the distance of a trip around the world.

## In The Open

Production lines are blooming everywhere in the timberlands and along abandoned old-field fence-rows. I have haunted the wayside trails for many years but never have I seen such bumper crops of everything in the making. There will be no costly slowdowns nor crippling strikes to jeopardize production goals. When late October harvest time rolls around these countryside factories will deliver right on schedule, and right to the limits of their contracts. The wildling who goes hungry this Fall is just naturally too lazy to reach out and help himself.

I made a circuitous tour through the hills, checking up on the shell-bark situation, with an eye to marking down a few choice hickories for future reference. Most of the shaggy-coated trees are hanging full of the husky fruits clear to their lofty tops. Now if I can just get around with some good throwing sticks before the squirrels and the country boys arrive we'll have some cracking good times at the fireside this Winter.

### Taking Vacation

Strangely enough, while the shellbarks stand heavy fruited, the pignut hickories seem to be taking a vacation this year, which is just as well. Walnuts are threatening to break a few records in October, and even the beeches have caught the fever, hanging a multitude of burrs among the terminal leaves. My favorite butternut tree is also in business this year, planning a bushel or so of the delicious nuts for my cellar, with plenty left over for the gray squirrels of that remote hillside.

On the menu for feathered folk planning the long trek south are a bumper crop of wild black cherries, just now getting ripe, and a profusion of seeds in every wayside tangle. I can't resist the black cherries and spent a long ten minutes gorging on the delicious fruits, much to the disgust of a flock of robins who were feasting there when I happened along.

The outlook is also good for Mr.

Possum. The few persimmon trees in my hiking territory are crammed with the pucky little fruits, which become so delicious when the frost takes a hand. The possum loves these tidbits and levies heavy toll during his midnight rambles. I hope he leaves enough for me, for I think a ripe juicy persimmon is just about the best eating of the October countryside.

### Brown Frog Leaps Around

I stopped in a country spring house for a draught of Adam's ale before tackling a hot trek through the late-August woodlands. A brown frog with a pronounced blackish check patch leaped wildly about among the dead leaves which covered the floor. He was the wood frog, a solitary creature who wanders far and wide in damp woodlands.

The odd cry of a red-bellied woodpecker announced my arrival to the whole hillside. It's easy to mistake this call for the scolding of a gray squirrel and I wasn't sure till the bird flew out of a tall tulip poplar. One or two specimens of the rather rare sabbatia showed their rose-pink blooms to the sun, and I saw one of the odd twisted orchids called ladies' tresses and a cluster of the clammy Indian pipes which had gone to seed and had turned the dropping pipes stiffly erect.

### Silence Oppressive

Deep in the woodland I followed the stream bed of the brook which has cut a gorge through the trees. The silence was oppressive, broken only by the droning of countless flies and bees. In fact the silence in the woodlands as September nears might be called ominous, portending the melancholy days which will follow this period of waiting, when bird song is silenced and the woods stand shrouded in deepest mystery.

The usual lush growth of foamy wooded ravines clawed at my boots whenever I stepped out of the stream. The white wood aster, one of the earliest of the clan to flower, displayed its sparse white rays in the cool shade, and I made the acquaintance of a new fern—the silvery spleenwort, which had colonized a good portion of the ravine.

Rolling homeward across the hills during the evening hours we were thrilled by the majestic spectacle of two great piles of snowy cumulus—like overgrown thunderheads—riding at anchor in the calm blue sea of the sky. Later as the sun dropped over the edge, these tremendous piles glowed with a coral radiance that surely re-

vealed the artistry of the Hand within the shadow.

A dozen or more southing night-hawks, lazily coursing against that gorgeous backdrop, completed a wayside picture of simple grace and over-powering beauty.

SASSY FRASS.

## DI MUCCIO-DAVELLI NUPITAL EVENT

At a charming wedding performed in St. Joseph's church on Saturday morning, August 26, at 9 o'clock, Miss Madeline C. DiMuccio, daughter of Mr. and Mrs. Ralph A. DiMuccio, 1101 South Mercer street, became the bride of Thomas Albert Davelli, son of Mr. and Mrs. Frank Davelli, 1014 Williams street.

Rev. Fr. C. H. Becker, pastor of the church, officiated at the double ring ceremony before an altar of attractively arranged with ferns and white gladioli.

The bride wore a white nylon and lace creation with an illusion yoke, long sleeves tapering to points over the wrists, and full skirt ending in a cathedral train. Her veil of illusion had a rolled edge and was secured by a queen's coronet of pearlized orange blossoms. She carried a white prayer book, showered with stephanotis and centered with a white orchid.

Her father, Ralph A. DiMuccio, gave her in marriage. The "something old, new, borrowed and blue" custom was carried out and the bride wore a sixpence in her shoe. As her jewelry, she wore a studded platinum wrist watch, the groom's gift.

The Misses Madeline Covelli, Dolly Alfano, Angeline DePaolo, Joanne DeCarbo and Julie Venditto, all first cousins of the bride, were among the attendants. As maid of honor, Miss Covelli wore a strapless gown of white nylon and lace over pink taffeta with a short white nylon jacket. With this costume she wore white mitts and a pink lace picture hat and had a colonial bouquet of pink roses and white baby mums. The bridesmaids were dressed identically in white nylon and lace over pale green with harmonizing accents.

Junior bridesmaids were the Misses Patty Jo and Cetta DiMuccio, sisters of the bride, costumed like the bridesmaids.

James Davelli served his brother as best man and the ushers were Shelley Cohen, Donald DeSanti, Carm DeLeone, cousin of the groom, and Joseph Cubellis.

Miss Clare Duff, the organist, provided appropriate music for the occasion.

A wedding breakfast was served

to 125 guests at the Ecclesian club. Serving as aides at the breakfast and reception were Mrs. Anna Alfano, Mrs. Edith Sanfelice, Mrs. Jane DeCarbo, Mrs. Phil Venditto and Mrs. Lays DePaolo, all aunts of the bride, and Mrs. Frances Covelli and Mrs. Dina Covelli, cousins of the bride, assisted by the bride's uncle, A. T. Venditto, and Mrs. Phyllis Viggiano.

Dinner was held at a local tearoom for members of the bridal party and immediate families.

The evening reception was also held at the Ecclesian club, with 500 guests in attendance. After a wedding trip to an undisclosed destination, Mr. and Mrs. Davelli will live in their newly furnished apartment, 614 West Washington street.

Mrs. Davelli is a graduate of the New Castle high school, with the June class of 1948. Her husband was graduated from the local high school in June, 1944, and is employed by the Scott Pontiac company.

Fr. S. Ippolito conducting the rite.

Given in marriage by her father, the bride was attired in a gown of Skinner slipper satin, designed with a high neckline and yoke of nylon net, made drop-shoulder effect, edged with seed pearls. The bodice of the gown was embroidered with seed pearls and silver baguettes and had short cap sleeves, with which the bride wore long tight gloves. A full bouffant skirt with side panniers of the same beading as the bodice embraced the Basque waist line and swept into a cathedral train. She wore a veil of pure silk illusion, edged with a narrow layer of French lace and held to a halo-effect coronet of imported waxed

orange blossoms. Her flowers were a crescent shaped bouquet of white gladioli and stephanotis. A member of the Immaculate Conception Sodality, the bride was presented with the statue of the Blessed Virgin Mary.

Miss Rose Marie Razzano, sister of the bride, was the maid of honor, dressed in a gold damask gown trimmed with gold velvet, styled with a deep-cut sweetheart neckline. Additional accents of the costume were short tailored sleeves, Basque waistline and pleated peplum caught in the back with a bow. Her flowers were a crescent shaped bouquet of white gladioli and white and yellow pompons. She wore a halo of white and yellow pompons on her head.

Tony Razzano, the bride's brother, served as best man.

John Razzano, the bride's brother sang "Ave Maria".

Breakfast was served to 40 guests at St. Margaret's hall, following the ceremony. Dinner was served at the Hotel New Penn to approximately 60 guests and the evening reception was also held at St. Margaret's hall for 200 guests.

Both of the newlyweds are graduates of the New Castle senior high school. The groom is a graduate of John Carroll university and has a Ph. D. degree. The bride is employed at the Augustine Hardware company, while her husband

conducts his own business at Bessemer.

After a honeymoon in Ocean City, N. J., Mr. and Mrs. Piccuta will reside in their newly furnished apartment at 113 East Clayton street.

# Hope To Remove West Side Rails

## Schweinsberg Says Rails Are Menace

E. Gene Schweinsberg, director of public improvements, has informed city council that he is in communication with the State Highway Department relative to the removal of abandoned street car rails in West Washington street, which he told colleagues, are dangerous to traffic. Schweinsberg wants the State Highway Department to take out the rails.

Several days ago Schweinsberg brought to council colleagues attention the condition of Grandview avenue, near the circus grounds, which are being improved. He said traffic results in clouds of dust and he feared for the safety of motorists during their trip to the circus, Friday.

### Has Not Bought Oil

He said there are gulleys on both sides of the street and the dust is so blinding it may impair the vision of motorists. Council told Mr. Schweinsberg to "look around and see if he could not obtain some oil some where."

Mr. Schweinsberg said the city has not bought any oil this year, and oil would be placed on Grandview avenue from Butler avenue only, if someone gave the city the oil and ear-marked it especially for Grandview avenue.

### Drive With Caution

He said he adopted this position because there are other dirt streets in the city which residents desired oiled, and the city has not oiled them at the city's expense.

Because of the dust condition motorists are warned to proceed cautiously through Grandview avenue to the circus grounds, Friday.

### Complaints of Budget

Today Councilman Schweinsberg

said his appropriation for street work during 1950, was far below the amount appropriated for 1949 and street department facilities have been prevented because of this.

### Painting Guard Rails

Guard rails in various parts of the city are being repainted by an employee of the street department. Mr. Schweinsberg reported today. He has assigned one member of the department to do the painting.

## Plans Made To Drag Lake For Trace Of Vanished Couple

ANTIOCH, Ill., Aug. 30.—(INS)—Plans were made to drag Channel Lake near Antioch today for an attractive blonde and her one-armed male companion who vanished mysteriously from a lake shore hotel, apparently leaving behind all her clothes.

All clothing worn or believed carried by the woman was found in a disarranged room at Smith's hotel where they were last seen Saturday evening.

Part of the search will be concentrated in heavy brush skirting the lake shore, Deputy Frank Valenta said, on the theory the couple was slain and their bodies dumped there or into the lake.

## Chick Demand Breaks Record, But Crops Need Warm Weather

HARRISBURG, Aug. 30.—(INS)—World-wide demand for baby chicks bred by Pennsylvania poultrymen reached record proportions during the first six months of 1950, the state agriculture department reported today.

Simultaneously, the department expressed fear of heavy losses to the 1950 Central Pennsylvania corn crop unless a continued warm spell matures ears in time to withstand early frosts.

Agriculture officials added that light rainfall in southeastern counties slowed down development of potatoes, tobacco, fruits and truck crops.

Shipment of chicks to 16 foreign countries and United States possessions totaled 164,000 against 103,000 for the preceding six months according to the department.

Greece is the latest country to be added to the list to receive air-shipped chicks from Pennsylvania farms, the department reported.

## State Senator Asks For Uniform Property Taxes

PITTSBURGH, August 30.—(INS)—State Senator George B. Stevenson of Lock Haven, Pa., today asked the Pennsylvania State Association of County Commissioners to consider a plan which would help all taxpayers by giving complete, equal and uniform property assessments.

Stevenson, an official of the State local government commission, said a block and lot survey and separate land maps for all local assessments will uncover millions of dollars worth of untaxed real estate.

That means you get a longer-lasting wave that looks more natural, feels far softer, behaves like naturally curly hair.

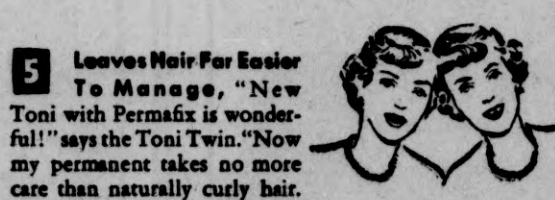

**2 Conditions The Wave.** Toni's revolutionary new neutralizer, Permafix, gives results like a glorious creme rinse. Permafix, in combination with Toni's exclusive Creme Waving Lotion, leaves your hair satin soft... smoother, easier to set—with the pliant "spring" that lasts month after month.

Given in marriage by her brother, Cosmo Scilla, the bride was costumed in sheer white marquisette; the bertha neckline trimmed with Chantilly lace. The lace fitted bodice featured long pointed sleeves and the full length skirt was fashioned of tulle. Her illusion fingertip veil was held to a tiara of sheer marquisette, entwined with tiny seed pearls. She carried a mother-of-pearl bridal prayer book centered with two large orchids and showered with streamers.

## New Castle And Her Industrial Family

**PRODUCTION LINE AT UNIVERSAL RUNDLE**—These bowls have just been cast from the forms shown in the right foreground and left background. The skilled workmen take the freshly cast bowls and finish them by hand, preparatory to their being dried, sprayed by a glazing material, and fired in the New Castle plant's continuous tunnel kilns.

(This is the fifth in a series of articles on New Castle industries. The series results from a survey recently conducted by Ketchum and Company, sponsored by the Greater New Castle Association.)

### Universal-Rundle Has Long And Friendly Association With City

Old friends who stick with us through thick and thin give us a rich sense of security. New Castle has such an industrial friend in the Universal-Rundle Corp.

"One of New Castle's best and oldest industrial citizens is the Universal-Rundle Corporation," says Dr. Wilbur E. Flannery, president of the Greater New Castle Association. "We value this company's long and friendly association with our city."

**Established Fifty Years Ago**  
Universal-Rundle got its start in New Castle fifty years ago when a small group of industrial pioneers established here the first bathroom fixture plant west of the Alleghenies. It was the Universal Sanitary Manufacturing Company until 1949 when it merged with the Rundle Manufacturing Company of Milwaukee and took its present name.

Today, Universal-Rundle is the third largest manufacturer of bathroom and kitchen fixtures in the nation. It is a leader in research and development to make America's homes, industries, and public places more healthful and more comfortable. Its new research laboratory, which is to be

dedicated next month, is the largest and most complete of its kind.

### Introduced Many New Methods

Colored ware for bathrooms was originated by our local company. It also introduced many improvements in methods of manufacturing the ware. Continuous tunnel kilns, humidity driers, and better casting methods are some of its contributions to the industry. Production at Universal-Rundle is always striving for the American concept of more and better things at a lower cost.

The company has a record of friendly relationship with its workers. Clyde M. Whittaker, president, says, "We are proud of our people. These skilled craftsmen, who with their hands shape and mould our products, have earned for us the reputation of having the finest and most beautiful ware in the world."

### Progressive Health Program For Employees

As evidence of its sincere interest in the welfare of its employees, Universal-Rundle has one of the most progressive industrial health programs in the ceramic industry. Floors are vacuum swept frequently and an extensive ventilat-

ing system keeps the air free from dust.

Modern aluminum dust inhalators are provided in the well equipped dispensary, staffed by attractive nurses. Employees are encouraged to use these inhalators regularly to prevent silicosis. X-rays have proved that these measures have effectively stopped what was once an occupational hazard.

### \$1,800,000 Annual Payroll

More than 500 New Castle men and women are with Universal-Rundle. The company's annual payroll is in excess of \$1,800,000. The uninterrupted flow of money into the city from the payrolls of this company for a half century has meant much to our community.

New Castle and Universal-Rundle have progressed together over the years. Officers of the company have taken and are taking an active part in leading civic projects as well as in guiding the business of their company. In addition to Mr. Whittaker, the officers are, S. S. Backner, H. J. Held, R. G. Caruthers, G. E. Crawford, G. W. Whittaker.

## Two Buses To Leave For Canton Gymanfa

On Saturday morning, September 2, a bus will leave at 9 o'clock for Canton, O., with a group of Welsh folks and friends, to attend the annual Gymanfa Ganu (Welsh Hymn Singing Assembly). Bus leaves from in front of First Congregational church, East Reynolds street.

On Sunday morning, September 3, another bus will leave for Can-

ton at 10 o'clock from the same point.  
Transportation committee: Mrs. David M. Owens, chairman; Mrs. Isaac Llewellyn, Mrs. Ben Fowler, Arthur J. Rees and Mrs. W. Blue-dorn.

### GOOD-DEEDER SUFFERS

SPOKANE, Wash.—Clifford Nelson, an advertising salesman, found a wallet containing \$187 and bearing only the name L. C. Johnson. Nelson spent the better part of a day locating the man in a local hospital. After his good deed, Nelson lost his own wallet.

VINCENNES, Ind.—Forrest Waggoner, state policeman, said it was the messiest accident he ever investigated: a concrete mixer stopped on a bridge to unload its contents and was hit by a truck loaded with tomatoes and fertilizer. Woman's work is never done!

That's not just idle talk — the average housewife works 63 hours a week. And she performs 70 different tasks in one day's work. Which is proof positive (if anybody needs it!) that housekeeping is a rugged job!

Of course, today's housewife has electric helpers to lend a hand and take much heavy work out of housework. But even the finest gadgets need something else — cheap, dependable electric service to give them life and usefulness.

That's why it's a compliment that housewives take electricity for granted. You flip a switch and know electricity is ready.

You can take its economy for granted, too. For electricity is just about the smallest item in your family budget. It costs less than a pack of cigarettes a day, yet it helps you sew, cook, clean, wash and iron, guards your health, entertains you. What else gives you so much living value — at such little cost?

# NOW IS THE TIME TO BUY THE BEST!

## GOOD YEAR TIRES are the best!

In times like these, far-sighted people naturally buy the best. And when it comes to tires, they buy the BEST tires. That's why more car owners today are turning to Goodyear tires. And that's why we are having a hard time keeping Goodyear tires in stock — despite the fact that Goodyear makes more tires than any other manufacturer in the world. So, even if we should be temporarily out of your particular size, it will pay you to place your order now for earliest possible delivery.

**Remember, if we don't have your tire size today, it will pay you to wait for new Goodyears — the best!**

**It's Value that counts**  
The final answer to tire value is how many trouble-free miles a tire delivers compared to its cost. Get Goodyear quality and find out for yourself why Goodyears are best.

**Terms to suit you...**  
You can still get longer-wearing Goodyear tires at prices you like to pay, on terms that suit you. We'll give you a generous allowance for your old tires plus easy terms, too.

**Trade new miles for old**  
90% of all tire trouble occurs in the last 10% of tire life. Why take chances with worn, smooth tires? We'll trade you new Goodyear miles for the remaining unsafe mileage in your present tires. Get out of the "danger zone" — Go Goodyear. And for safer driving, get LifeGuard Safety Tubes.

# Senators Seek Series Edge, Spectacular Fireworks Planned

## Niagara Falls Wins 10 to 4; Oil City Plays Here Sunday

Tonight at Flaherty Memorial Field, the New Castle Senators will close out their 1950 meetings with the Niagara Falls Citizens and following the game, a spectacular fireworks display has been planned.

Niagara Falls staged a premature fireworks celebration last night, winning from the Senators 10 to 4, after exploding a series of big place, Sammy DePiero leading with a homer, and Danny Chepkaukas doing a good job of "banging" with a single, double and triple.

### Stan Zedalis Goes Tonight

Manager Chuck Cronin has nominated Stan Zedalis to try for his ninth win tonight against 10 reverses and give the Senators a series edge. Manager Walt Chippelle will probably give the starting assignment to Francis Zeiss or Carl Popovich.

New Castle lost an opportunity last night to pick up a half game on the Erie Tigers, and a half game on Oil City, the Refiners splitting a twin-bill at Erie.

### Oil City Here Sunday

The Senators have nine games left on the 1950 card, including the tussle tonight, four at Butler and four with Oil City here, a twin-bill Sunday and Monday. The Senators are going to make an all-out effort to grab off second place in the league standing, as the season closes and the playoffs near.

### Two Games Back of Second

The standings today show the Senators two games back of the second place Butler team, 6½ back of Oil City and two games in front of the fourth place Erie club.

Niagara Falls had three big innings last night, scoring seven runs on seven hits, derringdo Becka after the sixth, with Smolko finishing. Becka was found for nine hits and gave up seven runs in his six innings pitched to get the loss. Smolko gave up four hits and three runs in three frames.

New Castle found Ken Yount a tough customer on the mound. In only one inning, the fourth, was he in any serious trouble, giving up four hits for three runs. New Castle scored an unearned run in the second inning on three straight Falls errors.

Expect Large Crowd Tonight  
Johnny Vizzini led the seven-hit attack on Yount with a pair of singles. Fedorko had three hits for

## Walt Vogan Joins Hole-in-One Club At Castle Hills

The veteran golfer and former New Castle High star athlete, Walt Vogan of Maitland Lane, has joined the exclusive hole-in-one club at Castle Hills course. The first "ace" of his career.

Vogan last evening in company with Ray Smith, Merle J. McIntosh and Hackett Kennedy made his now famous shot on the No. 7 156-yard hole, using a 6-iron to reach the green where the ball trickled into the cup as Vogan and his mates set up a wild commotion.

Vogan, one of the finest golfers at the Castle Hills course, was not too perturbed by his good fortune and calmly proceeded to finish the nine holes with a scorching 33 card, three under par 36, for the Castle Hills front nine.

Vogan was more excited today than last night as he told his fellow workers at the Pennsylvania Engineering Works about his famous shot. "It's certainly a real thrill," was the way the genial Walt put it today.

JAMES R. WEINGARTNER, R.D. 6, has written Here & There stating that "in regard to the controversy between 'Jim' Weingartner and Wesley Mann, Jr., concerning the Junior All-Stars, I want you readers to know that I am not the 'Jim' Weingartner involved. As far as I know, there is nobody by this name living here. It looks to me like some misguided sports fan has used my name when he should have used his own." Relative to the foregoing when Here & There received the letter he looked in the directory and found a 'James R. Weingartner' and was under the honest impression it was he who was the author, and because it is a function of a newspaper to publish letter of public interest, it was printed. However, in fairness to J.R.W., the writer is only too glad to publish he is not the 'Jim Weingartner' involved. It is regrettable that one would stoop so low as to use another man's name to a letter to a newspaper. (Note: Another letter was received this morning from the so-called 'Jim Weingartner'. It will not be published—Here & There.)

## Ne-Ca-Hi Football Squad Holds Third Scrimmage

New Castle High School football squad held its third scrimmage of the season Tuesday afternoon at its camp headquarters at Camp Fred L. Rentz.

First scrimmage of the year was held Saturday morning. Another short scrimmage was held Monday afternoon.

Joe Marinelli became the first casualty of the training season when he injured his left knee in Saturday's practice. He was still out of action Tuesday afternoon.

Not many changes were made in the first team set-up since the end of last week. John Roussos, Ray Latsko, John Sansone and Wilbur Foht still make up the first string backfield. Ralph Johnson has looked very good and may battle his way into one of the backfield spots.

Sam Perrino has taken over Joe Marinelli's guard position for the time being. Paul Buckner is holding down the other guard position. Bucky Tate and Danny DeFallo continue at tackle, while Bill Boak and Sonny Cook are hanging on at the end positions.

Fred McClain and Sam Medure are battling it out for the first team center job, with both boys seeing action with the first team.

Hugo Fiorante, playing left end on the second team, looked good on defense Tuesday against the first team. Mendall Kahner, Paul Bober, Steve Belancin, Sam Hanna, Lee Michael, Bob Shellopp and An-

thony Marino, all combined to make it tough on the first stringers Tuesday.

The squad has been working out with a combination T-formation and single wing, with John Sansone handling the ball from the T.

HURRICANE BREEZES  
The entire squad posed for a group picture before the beginning of Tuesday afternoon's practice. Individual pictures were taken of the first team. Coaches also got into the act. . . Councilman Joe Medure was out at camp Tuesday to see brother Sam in action. . . Al Tate has been working himself into shape and will report for practice with Illinois September 6. . . The squad will break camp Saturday morning and will come into Taggart Stadium for an intra-squad game.

# Home Stretch Labor Drives

## Big Registration Efforts Being Made

HARRISBURG, Aug. 30.—(INS)—Home stretch labor drives will be accelerated by Republicans and Democrats and labor organizations during the next three weeks. . . . The last day to register prior to the November 7 general election will be September 16, according to the State Elections Bureau. . . . The registration efforts of both major political parties will be augmented by the activities of their young voters' divisions. . . . Labor organizations, principally the AFL-Pennsylvania Federation of Labor and the CIO-Pennsylvania Industrial Union Council are concentrating on registering new voters in areas where they hope to defeat candidates considered "unfriendly" to labor. . . . In the May primary, approximately 2,862,000 Republicans were registered compared with 1,925,000 Democrats. As a result of the factional dispute in Republican ranks, approximately 50 per cent of the registered GOP vote turned out. . . . Latest registration figures show the GOP ahead in 53 of the state's 67 counties.

More than 13,500,000 cubic yards of culm have been removed from the Schuylkill River above Norris-town by dredges directed by engineers handling the cleanup of the waterway. . . . When the section of the river is relatively cleared of culm, dredges are dismantled and moved to new locations. . . . Approximately \$35,000,000 has been allocated for the river cleanup. . . . The state forests and waters department is routing displays across the state showing the effect of the cleanup project on the waterway. . . . Displays will be located at Hazelton August 28 to September 2, at Doylestown September 11-16 and at Wilkes-Barre September 15-23.

The National Institute of Life Insurance has reported that life insurance death benefits totaled \$77,849,000 in Pennsylvania during the first half of 1950. . . . Ordinary policies totaled \$50,158,000, the institute reported, while group and industrial contracts accounted for the balance. . . . Pennsylvania was second to New York in all three categories. . . . New York's total of benefits was \$130,547,000 for the first half of the year. . . . The institute estimates that life insurance premium represent 3.25 per cent of the nation's income and predicts that during 1950 the total of life insurance and annuities written will run around \$7,100,000,000 or 80 per cent above the 1950 total.
